

Bridging the Gap Between Homelessness in Older Adulthood and Elder Abuse: Considerations for an Age-Friendly Shelter System

<https://pubmed.ncbi.nlm.nih.gov/34472426/>

Homelessness and elder abuse are two major public health issues affecting older adults that are increasing in scope due to global population aging. This commentary examines the often-overlooked intersection between homeless older people and victims of elder abuse through two pathways (1) the systematic abuse of older adults in the shelter systems and (2) the role of elder abuse as a possible risk factor for homelessness in later life. **(PAID ACCESS)**

Associations Between Social Support and Poverty Among Older Adults

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC10288788/>

Research shows social support possibly impacts poverty, but the association between formal and informal support remains unclear. This study aimed to verify the association between distinct social supports and explore whether this association would affect poverty alleviation for older adults. **(OPEN ACCESS)**

Poverty and Food Insecurity of Older Adults Living in Social Housing in Ontario: A Cross-Sectional Study

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7460754/>

Poverty and food insecurity have been linked to poor health morbidity, especially in older adults. This study sought to understand poverty, food insecurity, and the risk factors associated with outcomes in Ontario's older adults living in social housing. **(OPEN ACCESS)**

Old Age Poverty: A Scoping Review of the Literature

<https://www.tandfonline.com/doi/full/10.1080/23311886.2018.1478479>

While the literature on poverty is extensive, the focus on older age poverty is limited. This review aimed to map out current empirical research on old age poverty, outline knowledge gaps, and provide recommendations for future research. **(OPEN ACCESS)**

The Association of Frailty with Poverty in Older Adults: A Systematic Review

<https://karger.com/dem/article/50/5/407/823010/The-Association-of-Frailty-with-Poverty-in-Older>

Suffering from both frailty and poverty may have significant negative consequences on older adults' lives. This systematic review aimed to investigate the relationship between frailty and low income among older adults. **(OPEN ACCESS)**

Poor Nutritional Status Among Low-Income Older Adults: Examining the Interconnection Between Self-Care Capacity, Food Insecurity, and Depression

<https://www.sciencedirect.com/science/article/abs/pii/S2212267218305136>

Understanding the mechanisms of how food insecurity and poor physical and mental health status are interrelated with nutritional status among older adults is needed due to their unique health and social needs. This cross-sectional study examines the relationships between self-care capacity, depressive symptoms, food insecurity, and nutritional status among low-income older adults. **(PAID ACCESS)**

The Association of Frailty with Poverty in Older Adults: A Systematic Review

<https://karger.com/dem/article/50/5/407/823010/The-Association-of-Frailty-with-Poverty-in-Older>

Suffering from both frailty and poverty may have significant negative consequences on older adults' lives. This systematic review aimed to investigate the relationship between frailty and low income among older adults. **(OPEN ACCESS)**

Health and Psychosocial Needs of Older Adults Who are Experiencing Homelessness Following Hospital Discharge

<https://academic.oup.com/gerontologist/article/60/4/715/5522096?login=true>

An understanding of the types of support needed upon hospital discharge is limited. This study examined the unique characteristics of older homeless adults and the healthy and psychosocial support required upon hospital discharge. **(OPEN ACCESS)**

The Impact of Poverty and Deprivation at the End of Life: A Critical Review

<https://journals.sagepub.com/doi/full/10.1177/26323524211033873>

This article uses a critical social science lens to examine literature addressing health inequalities and focuses on poverty and deprivation at the end of life. **(OPEN ACCESS)**

The Impact of Long-Term Care Needs on the Socio-Economic Deprivation of Older People and Their Families: Results from Mixed-Methods Scoping Review

<https://www.mdpi.com/2227-9032/11/18/2593>

Long-term care (LTC), poverty, and socio-economic deprivation are globally significant social issues. This scoping review explored the relationship between LTC needs, the health status of older people, and the risk of socio-economic deprivation for their households. **(OPEN ACCESS)**

Food Insecurity Among Single Parents and Seniors: A Case Study in an Urban Population in Canada

<https://link.springer.com/article/10.1007/s42650-020-00037-5>

Single parents and seniors are believed to encounter more food insecurity due to a complex web of disadvantages and discrimination. This community-based cross-sectional study examined single parents and seniors in an urban population to explore nutritional awareness, household meal practices, challenges, and coping strategies. **(PAID ACCESS)**
